Bandung, West Java, Indonesia

Fresh Graduate from Langlangbuana University with a Bachelor's degree in Informatics Engineering, and an alumnus of the Bangkit Academy 2023 Batch 1 in the Cloud Computing program. Over the course of two years (2021-2023), I worked as a Laboratory Assistant at Langlangbuana University, where I honed both my technical and communication skills. During my studies, I developed Android applications using Flutter and built RESTful APIs with Python and Flask. In addition, I possess strong proficiency in various programming languages and scripting, including PHP, Java, Python, Flutter, JavaScript, HTML, CSS, and SQL. I am passionate about continuous learning and innovation in the tech field, and eager to contribute to the development of impactful and efficient IT solutions.

EDUCATION

Universitas Langlangbuana - Bandung, Indonesia

Sep 2020 - Jul 2024

Bachelor of Informatics Engineering, 3.65/4.00

- Participated in the Program Kreativitas Mahasiswa-Karya Cipta (PKM-KC) 2022
- Participated in the Program Pembinaan Mahasiswa Wirausaha (P2MW) 2022.
